

SANKET RAMAKRISHANAN

Address: Prince park, D-231, Nalasopara-401209

Contact:9769280635

Email: sanketk123@gmail.com

Profile

Curious and innovative individual with an aptitude for problem solving having expertise in Web development.

Skills

- **Technical:**
 - **Programming:** HTML, CSS, PHP, JavaScript, Python, SQL, Angular.
 - **Tools/Frameworks:** Ruby, Django, Angular, Google cloud, Aws, Azure, Apache, Spark.
- **Interpersonal:** motivation, networking, leadership, team-working.

Education

- **Bachelor of engineering (Computer Science)** | 2016-2020
University of Mumbai | CGPA : 7.98/10
- **HSC (Science)** | 2014-2016
Bhavans College, Andheri(west), Mumbai. | Score: 80.5%
- **SSC** | 2014
Mumbai | Score: 95%

Projects

- Smart Traffic System -An intelligent traffic management using open-cv, raspberry pi and firebase cloud. | **Winner, Smart India Hackathon hardware-2019**
- Farma-Tron / Krishi-Mitra - An automated agricultural drone based on deep learning and iot. | **Winner, Technex, IIT-BHU**
- Health web app using tesseract.js.
- Violence detection and prevention using deep learning.
- Reconstruction of brain visuals by gans.
- Yoga app using PoseNet.
- Ai music composer and language translator using rnn.
- TGS salt identification and Earthquake prediction challenges on **Kaggle**.
- Hand-controlled pong game using tf.js
- Chatbot using word2vec, dnn and seq2seq models.
- A simple gameBot using reinforcement learning.
- Music recommender based on facial expression.
- Simple store website with angular.js and firebase.

Publications

- “Detect Crimes and Assist Law Enforcement Agency using Deep Learning with CCTVs and Drones.”, IJRASET & ResearchGate, issn: 2321-9653
- “Can Ai guess your password?- A gan approach.”, TECH-NEXT, IJRI, issn : 2456-5105
- “A Novel Approach to Reconstruct Visual Data from Brain Using Conditional GAN.”, IJOER, issn: 2395-6992
- “NextGen of Cyber-Security with Artificial Intelligence”, ResearchGate, doi: 10.13140/RG.2.2.10560.99844
- Blog writer at medium.com

Internships

Ai design engineer intern, Home Drone | 2018 - Present

- Researched on Drones for Offices and Banners and integrating Ai with it.

Co-author, Data Driven Investor | 2019 – Present

- Ai related content writing at datadriveninvestor.com

Blog intern, Lipishala | 2018 – 2019

Workshops & Certifications

- IEEE’s industry-oriented Ai-MI workshop at NITIE
- Nvidia’s Deep-Learning at IIT-B
- Accenture’s Digital skills on Ai & Google analytics.
- Hackerspace mumbai’s Ai workshop
- AI workshop at TCET
- DRDO’s e-techcon online workshop
- Robotics & Ethical hacking at IIT-B
- Science Quiz by Mah Govt.

Courses

- Andrew Ng’s courses on CNN, RNN, neural networks, Machine learning on Coursera
- Deep learning on NPTEL
- Andrej Karpathy’s DL
- Udacity’s Deep learning
- AWS concepts and deep learning on Udemy
